

# Fuel and Maintenance Management (FFM)

Foss National Leasing provides an integrated fleet management program that provides modern tools to ensure that vehicles operate both efficiently and cost effectively.

“Our Fuel and Maintenance Management Program lets you focus on a blend of convenience, cost and control.”

Foss is Canada’s leading independent fuel and maintenance card program provider. We help companies like yours regain financial control over their fleet by streamlining administration, reducing fuel and maintenance costs, identifying card misuse and fraud while increasing driver satisfaction. And best of all, we make it as easy as swiping the card. At Foss National Leasing, we’ve found a way to save you real money by developing innovative programs that empower you to control fuel and maintenance expenses.

You face countless challenges every day, so a focus on fuel and maintenance controls for your fleet might not be a high priority. The problem is that you could be facing hidden costs and inefficiencies with the way you purchase, pay for and manage your fuel and maintenance. Our program options let you focus on a blend of Convenience, Cost and Control.

# Fuel and Maintenance Management (FFM)

Foss National Leasing's roadside assistance program is included with all FFM cards.

We provide national coverage with a focus on driver convenience, with card acceptance coast to coast at national fuel, maintenance and tire companies along with thousands of independent motor vehicle service providers. The benefit is that your drivers can purchase the fuel and maintenance they require without disrupting their daily workflow and productivity.

Foss National Leasing provides a fuel and maintenance program that is focused on efficiency and the ability to measure and manage your business consumption. It gives fleet customers the power to consolidate all automotive purchases through a single monthly invoice and the option for advanced reporting as required. The benefit is that your staff will save valuable time in administration duties.

Our spending history reports allow for monthly or year-to-year analysis of your fleet related expenses, you can quickly identify high expense areas or review trending allowing you to fine tune your fleet policies and increase efficiency. Foss also provides real-time fuel exception reporting to identify potential abuse or even criminal fraud within your fuel program. You can quickly see when a driver might be purchasing an unauthorized propane tank or fuel for a personal vehicle. Our system constantly compares the latest available purchase data to your vehicle specifications like tank size and fuel type. Historical driver spending habits such as number of monthly fill-ups, average transaction size or typical locations are also reviewed and tested. When a purchase is found to be unusual, an e-mail warning is sent immediately to the fleet manager for action as required.

Authorization within to our maintenance program can be transferred to our experienced Vehicle Maintenance Technicians. They act on your behalf and receive the vendor repair calls to review and approve the appropriate work required. This is based on your

unique standards for the types of repairs allowed and the spending parameters that you establish.

For unscheduled maintenance, such as tires and repairs, vehicle maintenance technicians help you find the most convenient and approved shops in your area and work hard ensuring you get the right services at the right price. Costs are controlled through consistent pricing and invoice auditing, cost avoidance and postwarranty recovery. In addition, the Maintenance Program allows you to choose the level of spending and authorization for your drivers. You also have the option to handle driver calls for spending authorization.

The Foss FFM program is 100% Canadian and is ideal for all fleet sizes, across all industry types. Whether you own or lease your vehicles Foss is the solution for you. Simply provide us with your vehicle data and driver information. Once you receive your FFM cards you will regain control of your fleet expenses and maximize your fleet's efficiency.

Our program offers convenience, reduction in cost and added control of your fleet's operating costs. Let Foss handle your fuel and maintenance management so you can focus on what matters most: growing your business.
